

# La Jolla Elementary In Partnership with Rendezvous Science Center

*"Exposing the youth of today to the growing scientific innovations of tomorrow".*

## After School Science Enrichment Program

We love learning about science at La Jolla Elementary School! We have formed a partnership with Rendezvous Science Center in La Jolla. We are currently working with them to bring our students more science opportunities at our school.

We are going to begin by offering an after school science enrichment program to all students in grades K-5. It will be offered on Tuesdays for all grades K-5. Our La Jolla Elementary teachers at each grade level will work with students on carefully chosen science topics and activities that will expand and enrich the regular curriculum taught in our science program. It will be taught as our science program is taught with hands on exploration and an inquiry-based approach.

Please call the school office (858) 454-7196 if you would like more information about the program.
